

H2O Excel

Technical Specification Sheet Surfactant Blend/Wetting Agent

Active Ingredients:

Biological surfactants, plant extracts

Product Description:

H2O Excel is an all natural bio-degradable solution functioning as a catalyst for water conservation.

Suggested Applications:

H2O Excel promotes water-efficiency in turn helping the environment while meeting strict performance standards. It can decrease water usage by 30% to 50%, thereby, reducing the amount of water required per application, which in turn reduces cost for families and business owners.

Packaging:

H2O Excel is packaged in 1 gallon jugs and 5 gallon pails.

Typical Properties:

Appearance: Light Brownish Yellow Liquid
Specific Gravity 1.1+/- (9.56 Lb/ Gal.)
Flash Point: N/A

Features and Benefits:

- *Less water used on lawns, landscaping, gardens and crops
- *Minimal fertilizer needed due to the plant's ability to absorb water
- *Increased plant strength as they soak up water more freely
- *Lower cost to maintain lawns, landscaping, gardens or crops
- *Reduced crop failure

H2O Excel has a shelf life of 3 years if stored in a cool, dry place. DO NOT FREEZE.
